

# BOSNALIJEK

## **COMPANY PROFILE**

Bosnalijek, Pharmaceutical and Chemical Industry, Joint Stock Company, has been established in 1951. It is the biggest industrial producer of medicines in B&H with a rich production programme that includes generic medicines for usage in human medicine and disinfectants.

Pharmaceutical programme includes around 200 different products for peroral, parenteral, and topical administration with effect on intestinal system and metabolism, cardiovascular system, systemic infections, skin, musculo-skeletal system, nervous and respiratory system.

The Company adheres to the most advancing standards of quality and has a world status in production operations and technical competence of production development, production engineering, quality assurance, as well as health and safety of environment.

The established system of quality is one of the key foundations of Bosnalijek's business success and business policy. That was confirmed by the global certifying company BVQI, which awarded to Bosnalijek certificates ISO 9001:2000, ISO 14001 and OHSAS 18001:1999.

The highest world standards for pharmaceutical industry, requirements of US and European Pharmacopoeia, principles of GMP and GLP are consistently observed in Bosnalijek.

This was confirmed by numerous foreign audits, like the GMP audit of the Dutch Ministry of Health, which has approved Bosnalijek as drug manufacturer for the European Union market, by its positive report, published in IMID database.

Bosnalijek currently has 570 employees of which around 50% have university qualifications and specific knowledge from pharmaceutical industry.

Following its strategic directives, Bosnalijek completed in 2006 its largest investment in its 55 year long tradition through construction of 20.5 million EUR Production and Distribution Center together with implementation SAP (System Applications and Products). The facility is an area of 7000 m<sup>2</sup> which was built using avant-garde technology concept of industrial production and distribution of medicaments implemented only in leading pharmaceutical companies in the modern world.

Throughout its history Bosnalijek has always been reliable partner in the pharmaceutical industry, both in the domestic market and abroad and remains open to all new cooperations with global pharma companies.
